

Invitation for Participation

Crypto-Currencies in a Digital Economy

3rd Berlin Conference (CCConf 2021, CCC3)

26. - 27. November, 2021 (if physical event)

25. - 27. November, 2021 (if online only)

Einstein Center Digital Future, TU Berlin

Wilhelmstraße 67, 10117 Berlin Germany

Since its introduction in 2008, distributed ledger technology emerged from its use in crypto-currencies and continues to disrupt numerous of technological and economic applications. Despite its potential as a trust-free, cost-efficient, and automated system, DLT is still an emergent technology and, therefore, faces a number of challenges.

The Berlin Crypto-Currencies Conference 3 (CCC3) provides a platform for interdisciplinary discussion of these challenges, as well as the technological and economic potential of blockchain-based systems.

We welcome researchers and practitioners working on topics such as:

- macro-economic consequences, decentralized monetary policy, CBDC
- high-frequency exchanges, portfolio optimisation and risk management
- privacy, security, and alternative DLT approaches
- governance by and of blockchain-based systems
- legal aspects

Speakers are invited individually.

If you are interested in giving a talk, please let us know it via [registration](#).

Programme and Speakers

Keynotes by:

[Prof. Dr. Steven Kou](#)

Questrom Professor in Management and Professor of Finance, Questrom School of Business, Boston University

- Ph.D. in Statistics. May 1995, Columbia University.
